

Your site has been updated to version 3.1.7 with various bug fixes and improvements, some of which are listed below.

After logging into Dealer Choice, press and hold the CTRL + SHIFT + R keys to refresh your browsers cache.

Features and Enhancements in this release:

(1512) Customer List Export enhancements

The Customer List export (accessible per permission – See Customers permissions settings) has been enhanced so it now includes multiple tabs in the worksheet. The first tab is the Customer List and contains customer data, the second tab is called Customer Contacts and will contain all customer contact data per customer, the third tab is called Customer Locations and will include all location data per customer.

(1491) Dashboard (Permissions and site metrics mini reports).

A **new feature** has been added called the Dashboard. The dashboard is a set of mini reports that display different metrics within your site. Each mini report is controlled by permissions. Details on this feature are in the online user manual (Help & Communications – Dealer Choice User Manual).

(1476) Invoiced Sales report – now includes Profit dollars column.

The Invoiced Sales report has been modified to include the display of Profit dollars. Profit is totaled for each proposal, sales rep and report grand total.

(1475) Bookings report – now includes Profit dollars column.

The Bookings report has been modified to include the display of Profit dollars. Profit is totaled for each proposal, sales rep and report grand total.
